“IS-100 is now a mandatory course for Eastern Region MRC volunteers.”

ICS-100.b

Training is the gateway to serving during an emergency. All Virginia Department of Health employees, military, police/fire/rescue, and any public or private entities receiving federal grants in EP&R or public health funding must be NIMS compliant (ICS 100 and 700). Because the MRC falls under VDH, this is a requirement for all volunteers to understand communication and procedures during emergency response. The Eastern Region Health Dept. Planners have now mandated the criteria for which an MRC volunteer must fulfill in order to be deployed on a disaster, and includes ICS-100.

Below is the link to take the ICS-100 course on-line. It will take 2– 3 hours including the exam—you must achieve an 80% pass rate to receive a certificate. You will receive a certificate link via email usually within 2 business days after passing the exam. Please note, FEMA does not send the certificate to PenMRC, and I don’t have access to their database. You must forward that email or a hardcopy to me. If you have passed the exam but have not received a certificate, check your spam mail or call 301-447-1200 to have one mailed to you. MRC is not offering classroom ICS courses at this time.

**To take the course on-line go to TRAINVirginia #1024627 or FEMA:

TRAINING MESSAGES

~*Peninsula MRC still has 271 volunteers who have not had the mandatory Orientation. This is crucial to being able to serve during a disaster and saves you volunteer processing time in the midst of an emergency. Please sign up!

~Due to the volume of activities inside of the PenMRC office, training reminders are not sent; clicking available adds your name to the roster, and the instructor is expecting you. As a courtesy to the instructor, please withdraw in TRAIN (if you registered there), or email or call the PenMRC office to cancel at least 24 hours in advance.. Thanks for your understanding.

~Please provide MRC with certificate upon completion of courses such as ICS or CPR/AED/ First Aid.

‘Training is the Gateway to Serving’ and builds confident and competent volunteers.
